Item No. L-611

Eco Friendly Solutions-Biodegrade plastic

Containers are made from biodegradable materials such as coffee barn, PP wooden, PLA corn.

Refillable Lipstick

By only changing the pigment mechanism, we develop refillable lipstick to avoid the additional usage of the outer casing, reducing plastic and energy consumption.

Airtight Packaging

- Well protect the lipstick bulk to avoid volatilization caused by exposure to air oxidation.
- Food grade and PCRABS raw material available.
- Available bulk type: waterproof, long lasting, velvet matte, highly saturated lipstick and concealer.

Metallization

Spray Coating Matte
